## Your Idaho Advocate for Safe Drinking Water and Wastewater Systems.

Recognizing that potable water and proper wastewater treatment are necessary for public safety and health, as well as environmental conservation, IRWA was established in 1987 to help rural communities provide these services.

IRWA is a 501(c)(3) organization, primarily funded by individual rural system memberships. Staff and funding are leveraged statewide, allowing IRWA to provide services in a cost-effective manner. Communities benefit from responsive, case-specific services from professional providers.

Our mission is to provide technical assistance, training, and a strong representative voice for the benefit of Idaho's water and wastewater systems.

**IDAHO RURAL  
WATER  
ASSOCIATION**

## It's Your Community! You can help...

- Educate yourself, your family, and your community.
- Use safe practices.
- Get involved with your local government and utility providers.
- Volunteer in your community. Reach out to educational organizations and Watershed Advisory Groups.
- Contribute tax-deductible funds to IRWA to ensure they can continue to support your community's needs.

### Safe Drinking Water

This is everyone's responsibility.

- Learn where your drinking water comes from.
- Understand water delivery to your home, and what challenges your local drinking water provider faces.

### Safe Wastewater Treatment

Safe practices impact our waterways and environment.

- Learn how wastewater from your home is managed.
- Use safe practices, including proper disposal of human and animal waste, fertilizers, chemicals, personal care products, food, pesticides, and prescription medications.

## Our Children Are Our Future

- Teach them to conserve and protect our drinking water.
- Ensure that future generations will still have clean, safe water.
- Download our educational materials at: [www.idahoruralwater.com](http://www.idahoruralwater.com).

## Tax-Deductible Donations and Community Programs Help IRWA

Your dollars are important for IRWA. With increased fiscal resources, IRWA can continue serving Idaho's rural communities, and expand its educational and technical reach. We are your resource for community education, training, system upkeep and maintenance, special projects, grant assistance, and federal, state, and local coordination. By giving your tax-deductible donation, or supporting community shopping programs such as Fred Meyer or Amazon Smile that benefit IRWA, you support local drinking water providers, wastewater treatment systems, and the entire network of Idaho's rural communities! For more information on participating in our community shopping programs please visit: [www.idahoruralwater.com](http://www.idahoruralwater.com).
